

INTERNATIONAL **LIVER IMAGING** COURSE AND SYMPOSIUM

5-7 SEPTEMBER 2025

RENAISSANCE ISTANBUL POLAT BOSPHORUS HOTEL

INTERNATIONAL **LIVER IMAGING** COURSE AND SYMPOSIUM

DAY 1: September 5, 2025

13.00 - 13.20	Liver Anatomy Revisited
13.20 - 13.40	Liver Ultrasonography, LIRADS
13.40 - 14.00	Liver CT : Dual-energy or Spectral?
14.00 - 14.20	Abbreviated and Regular Liver MRI
14.40 - 15.00	How to characterize liver lesions?
15.00 - 15.25	Cystic, Solid and Inflammatory Lesions
15.25 - 15.50	Malignant Lesions
15.50 - 16.20	MRCP

DAY 2: September 6, 2025

Liver-Pool

09.00 - 09.10	Understanding Liver By MRImaging
09.10 - 09.20	MR Contrast agents: Extracellular
09.20 - 09.30	MR Contrast agents: Hepatocyte Specific
09.30 - 09.40	Should We Use Both agents together?
09.40 - 09.55	Hemangioma Mimickers: Sarcoma and Beyond
09.55 - 10.15	Hepatic adenoma characterization: Role of MRI
10.15 - 10.30	FNH mimicking lesions.
10.30 - 11.00	Coffee Break

INTERNATIONAL

LIVER IMAGING

COURSE AND SYMPOSIUM

DAY 2: September 6, 2025

Everything About LIRADS

- | | |
|---------------|---------------------------|
| 11.00 - 11.15 | HCC and LIRADS: Typicals |
| 11.15 - 11.30 | Atypicals and pitfalls |
| 11.30 - 11.45 | Beyond LIRADS |
| 11.45 - 12.00 | Immune Cold or Hot HCC |
| 12.00 - 12.15 | HCC prognosis |
| 12.15 - 12.30 | LIRADS Treatment response |

Future of Liver Is Now

- | | |
|---------------|--|
| 14.00 - 14.10 | Multiparametric Liver MRI |
| 14.10 - 14.30 | US elastography |
| 14.30 - 15.00 | MR elastography |
| 15.00 - 15.15 | Liver function (FLIS) by MRI |
| 15.15 - 15.30 | Elastography or Function: Which is more important? |

In or Out of liver

- | | |
|---------------|---|
| 16.00 - 16.15 | Intrahepatic ligaments (Teres and Venosum) |
| 16.15 - 16.30 | Extrahepatic ligaments (Hepatoduodenal - Gastrohepatic) |
| 16.30 - 16.45 | Perihepatic Lesions |
| 16.45 - 17.00 | Many faces of Liver Lymphoma |
| 17.00 - 17.15 | Hemorrhagic Liver lesions |
| 17.15 - 17.30 | Interesting Liver Lesions: PET-CT needed? |

INTERNATIONAL

LIVER IMAGING

COURSE AND SYMPOSIUM

DAY 3: September 7, 2025

Special Liver

- 08.40 - 09.00** Unusual Liver Tumors
- 09.00 - 09.20** Fibrotic and Fatty Liver Lesions
- 09.20 - 09.40** Pediatric (only) Liver Lesions
- 09.40 - 10.00** Fetal Liver Evaluation

10.00 - 10.30 Turkish Coffee Break

Fatty Tsunami: Diabetes, Inflammation, Cirrhosis

- 10.30 - 10.45** Clinical Findings and Evaluation
- 10.45 - 11.00** How to do Proton Density Fat Fraction?(PDFF)
- 11.00 - 11.15** Fat content and Stiffness Correlation
- 11.15 - 11.30** Treatment Response Assessment
- 11.30 - 11.45** Iron Measurement, Is it Helpful?
- 11.45 - 12.00** Wegovy Or Ozampic
- 12.00 - 13.30** **Lunch**

INTERNATIONAL

LIVER IMAGING

COURSE AND SYMPOSIUM

DAY 3: September 7, 2025

Liver Metastasis, What is New?

- | | |
|----------------------|--|
| 13.30 - 13.45 | Unkown Liver metastases: What is the origin? |
| 13.45 - 14.00 | Preoperative and PostTreatment Evaluation by MRI |
| 14.00 - 14.15 | Local Ablation (RF, Microwave or IRE) |
| 14.15 - 14.30 | Intravascular treatment (TACE, TARE or HAIC) |
| 14.30 - 14.45 | Surgical treatment (Laparoscopic or Open) |
| 14.45 - 15.00 | Oncologist's View |
| 15.00 - 15.30 | Turkish Coffee Break |

Liver Transplantation

- | | |
|----------------------|-----------------------------------|
| 15.30 - 15.45 | Preoperative Imaging |
| 15.45 - 16.00 | Hepatologists View |
| 16.00 - 16.20 | How to do Living Donor Transplant |
| 16.20 - 16.40 | Posttransplant Complications |
| 16.40 - 17.00 | Role of Interventional Radiology |
